

JIM MANNING MAY SUCCEED DONOVAN.

Stanley Robison Is in Kansas City Looking for a Manager for the Cardinals.

CHARLEY NICHOLS DECLINES.

Former Boston Pitcher Says He Will Stick to Western League -Manning Refuses to Talk.

REPUBLIC SPECIAL

Kansas City, Mo., Nov. 22.-Charley Nichols is not going to St. Louis to succeed Pat Denovan as manager of the St. Louis Cardinals. This much is certain. However, this cannot be said about Jim Manning, president of the Kansas City Western

League team.

Manning and Nichols have been in conmultation with Stanley Robison of St. Louis
all evening at the Hotel Baltimora Robison
admits that he is here to either sign a
contract with Nichols or with Manning.
Manning may go, although he will not talk
shout the matter. ols said to a correspondent of The

Nichols said to a correspondent of The Republic to-night:
"I didn't come out to Kansas City to leave it right away, and I am not going to leave. You may tell The Republic for me that I never threw any one in my life, and I am not going to begin now. The St. Louis people are all right, and so is the Western

people are all right, and so is the Western League. I am here to stay."

From this sort of talk one can easily see what Nichols means. He means that Van Brunt stuck to him, and that he will stick to Van Brunt. Nichols was offered a place as manager by Detroit last year at \$5,500 a year, but he turned down the offer.

Manning has business interests here and says that there is no money in baseball so long as the two his leagues are fighting.

long as the two big leagues are fighting. the team began to lose money. Maning is agent for an explosive here now and sys he has retired from baseball.

But there is another thing to take into consideration. Manning hates the American descriptions of the consideration of the consideration.

consideration. Manning hates the American Association management in Kansas City and would go to St. Louis for the pleasure of hurting the American Association team by taking some of its best players.

This would appeal to Manning. Taking all in all, there is no telling what Manning will do. He won't tell what his blans are and Robison refuses to say whether or not he and Manning have reached an agreement. Mr. Robison will not talk of the possibility of Manning as a manager for the Cardinals.

For some time it has been known that Pat Donovan contemplated retirement from baseball. As a player and manager, he is wanted by both the National and American leagues, but he has not signed any club's

contract. Donovan himself is reticent, and while he admits that he may quit baseball, he gives no hint of his intentions. It is reported that he is thinking of signing a con-tract in Cupid's league and retiring to private life. Another tale is that he will engage in business in St. Louis.

As to his resignation, the announcement of it yesterday was rather belated and un-sustained, as those in the "know" have been aware for some time that he had placed himself in such a position as to cause the National League club to look

placed himself in such a position as to cause the National League club to look after other avaliable material for the management of the Cardinals.

Donovan has never handed in any formal resignation. Stanley Robison returned to St. Louis last week to testify in an insurance suit growing out of the fire at League Park in 1901. Donovan had not signed a 1903 contract and as he had previously intimated that he would not be in baseball next year, Mr. Robison asked him to declare himself.

Mr. Robison and Donovan met at the Southern Hotel Wednesday night and the next day the manager caised on Mr. Robison at League Park. Friday night Mr. Robison went to Kansas City, presumably to get Charley Nichols to undertake the management of the Cardinals.

Stanley Robison stated that if Donovan remained in baseball the St. Louis club would get a chance to pay him as much as any American League club, and it is a fact that the American League is bidding as high as \$5,000 for the Cardinal captain.

Several theories are advanced by Donovan's friends for the peculiar situation in which he is placed. One is that the St. Louis club did not care to meet a higher offer made by the American League, and gave up hope of securing him for next year. Another is that Donovan is still undecided, and that the Robisons, fearing that he would decide against them, are hunting a manager who will take charge of the club at once and keep in touch with the players. Not so long ago an American League club owner, in referring to Donovan, said:

"Keep your eye on Patsy. The American League wants him, and if they don't get him it will be because he will quit the game."

Donovan has not stated that he Will rettire. Perhaps he let down the St. Louis in Policy in the said of the policy in the said.

Donovan has not stated that he will re-tire. Perhaps he let down the St. Louis club easily, and it will cause no surprise to hear of him entering the American League camp. He is capable of managing a good business as well as a ball cluo, and if a good opportunity is presented he certainly would be doing the proper thing to accept it. One thing is certain, Pat Donovan is not going to get any the worst of it.

and Scholl will do the catching. Frank Huiseman of the Southern League will cover first base for the Columbias. The other infield positions will be assigned to the following players: Second base. Casey: shortstop, Otto Williams of the St. Louis Cardinais; third base, Rimmy Burke of the Pittsburg champions. Frank Gentus of the Omaha Western League team will play centre field. The Kerns will play their regular team with Bob Taibot and Minch as a battery. Jack Powell of the St. Louis Browns will do the umpiring. On account of the advanced season, the game will be called promptly at 2 o'clock, so that it may be finished by 4 p. m.

ST. LOUIS DOGS WIN THE DAY. Carry Of Nearly Everything at Chicago Coursing Match.

REPUBLIC SPECIAL REPUBLIC SPECIAL

Chicago, Ill., Nov. 22.—Chicago greyhounds were outclassed in the coursing
match held under the auspices of the Evergreen Coursing Club at Evergreen Park today, the bulk of the money going to Frank
Jackson, the St. Louis owner of Laughing
Water, Lulu Girl and Wyrls, which took
first, second and third prizes.

Mike Allen's Bashful Maid was the only
local dog to finish in the money, taking
fourth prize. The event was for the Timahoe Stakes.

The best course of the day was that be-

fourth prize. The event was for the Timahoe Stakes.

The best course of the day was that between Mr. Russell's Wedding Bell and Lulu
Giri, in the third round. Both started even
from the slips, but Wedding Bell soon led
and had scored five points before Lulu Giri
had gained a turn. The latter, however,
forged ahead and cut the lead down to two
points, and then Wedding Bell, by clever
work, scored five more points in succession, leaving her a total of seven points.
Lulu Girl led for the balance of the course,
which was round and round one portion of
the fleid, and finally the hare headed for
the woods and was killed cleverly, giving Lulu Girl the course by nineteen points.

AMATEUR SKATING SEASON.

John Davidson Proposes to Inauga-rate Series of Collegiate Races. rate Series of Collegiate Races.

Amateur skating will be featured in the city the coming winter, according to present plans. John Davidson, who will manage the Ice Palace this season, commencing Thanksgiving evening, announced yesterday that he intended to try and form a skating league of the local colleger and schools, each institution to be represented by a regular team, and to hold a series of races at varying distances.

His idea is to secure teams from the High Behool, Smith Academy, St. Louis University, Washington University and the Christian Brothers, if all these institutions will enter men, and to have a regularly scheduled series of races. The team winning the greatest number of races will be awarded a silver cup as a trophy, while gold medals will be given the individual members of each team.

This plan is suggested in place of the hockey rames of last year. He announced that he would bring the best skaters in the country here and would arrange a series of races for professionals, securing a representative from each city. Davidson himself will get in training and will represent this city.

MERCURY AND POTASH CURE ONE SINGLE CASE OF

When a man knows that he has contracted contagious blood disease, his first thought is of Hot Springs, Arkansas, for he has been told that's the place to get cured. If he can raise the price he travels from the East, North, South or West to the Springs, takes 21 or 42 hot baths, rubs mercury, takes potash, and at the end of the period leaves for home, feeling very much relieved-for the visible symptoms have disappeared. Many a man knowing himself to be tainted by the disease, goes there for treatment when he is engaged to be married, and not noticing any visible signs of the disease after his return, gets married. A fatal mistake! For what is the result? The poison being still in the blood, the marriage is barren or the offspring is tainted with the disease.

A case in point. A gentleman in Louisville, Ky., after his second trip to Hot Springs was told by his physician that he was all right and might get married. He did. He had two daughters, who at the ages of 3 and 4 developed symptoms of the disease. Consulted his family physician who pronounced it hereditary blood poison. When the man heard this and realized the suffering awaiting his little ones, he went into a back room and blew out his brains.

It is remarkable how long the disease may be dormant in the system. We have treated one case of Locomotor Ataxia, where the patient contracted the disease at the age of 18, who says that after being cured he noticed no symptoms for fifty years, only to be struck down with Locomotor Ataxia at the age of 68. That shows how important it is to get the poison eradicated from the system. Mercury and potash can't do that, never have and never will-nothing on earth except the

SIEBER SERUM TOXIN TREATMENT

administered by this company, can eradicate the disease. You may say, how do you know that your treatment eradicates the disease, if at times it takes fifty years o de-

velop? We answer: In the first place this treatment has been given by Dr. Sieber for the last twenty-five years, during which time he has never had one single case of relapse; second, after a person has taken this treatment, he feels that he is well, that the disease is removed. The mental agony which he suffered is all gone, he feels like a new man; third, having cured a great many cases of Locomotor Ataxia, Paralysis, Loss of Evesight, etc:-all caused by Blood Poison-it follows that the cause-Blood Poison-was removed or the results of this cause would not have been cured, for most of these cases were pronounced incurable by the attending physicians. That is just what we are doing. We remove the cause-Blood Poison. By so doing we arrest the resulting disease and then nature steps in and perfects the cure.

We cannot urge those having only the primary or secondary symptoms too strongly not to wait until the tertiary symptoms appear, but to begin treatment at once. We can cure you; never failed to cure one single case of blood poison. No other agency on earth can help you, therefore, no matter in what form you have the disease, come to this office for treatment and come at once. We will make you'well and, if you come soon enough, save you from the terrible results in tertiary form, may be from a mad house. (Thousands of men and women have been sent to insane asylums, the result of this terrible Blood Poison.)

We are pleased to announce that not long since a leading doctor of Hot Springs sent us a patient whom he could not cure. The patient is doing nicely under our care, and it looks now as if he would soon be well. In this connection we would say that if any physician who may read this article has a case of contagious blood poisoning which he cannot cure, we shall be pleased to treat the patient. We would ask such a physician to send the patient with his card, and if we do not effect a cure there will be no charge.
